

**4th Symposium of the European LeukemiaNet,
Heidelberg, January 30 + 31, 2007**

**WPs 11+13 Session II (CYTOGENETICS, GENE PROFILING):
January 30, 2007, 03:00-05:00 p.m.**

AGENDA

- 1. Activity report (January 1 to December 31, 2006):** C. Fonatsch, T. Haferlach

- 2. Joint research activities within the scope of the ELN:**
 - H. Rieder: Questionnaire about the rules and contents of a cytogenetic data collection within the ELN
 - C. Haferlach: Genomic microarray and gene expression data in correlation to 5q deletions
 - D. Haase, C. Seedhouse: The role of polymorphisms in DNA repair and detoxification genes in myelodysplastic syndromes
 - H. Rieder: The CyDAS

- 3. Call for cooperations in research projects:**
 - B. Johansson: Clinical and molecular findings in t(12;14)(p13;q11)-positive acute leukemias (T-cell ALL)
 - R. Wieser: Micro RNAs in AML
 - C. T. Storlazzi: Pediatric T-ALL with t(2;11)(q11.2;p15) without NUP98 involvement

- 4. Upcoming WP 11 activities**
 - a. Spread of excellence and knowledge
Workshops in cooperation with other workpackages:
C. Fonatsch, D. Haase and P. Valent: 3rd Joint Meeting on Genetics of MDS (Vienna, September 2007)

- 5. Miscellaneous**
