EHA / ERIC Scientific Meeting

The role of microenvironment in CLL

Chairpersons: *Eva Kimby and Emili Montserrat*

Date: Thursday 4th June

Time: 18:30 -20:00

*Venue: Internationales Congress Centrum (ICC) Berlin
Neue Kantstraße 1, 14057 Berlin, Germany*

Agenda

1. Introduction - *Federico Caligaris-Cappio*
2. B-cell receptor epitope profiling in chronic lymphocytic leukemia - *Mascha Binder*
3. The role of tumor suppressor PTEN in the interaction between CLL cells and the lymphoid microenvironment - *Medhat Shehata*
4. Comparative gene expression profiling of CLL cells from peripheral blood and lymph nodes demonstrates activation of B-cell receptor and NF- κ B signaling pathways in the tumor microenvironment - *Adrian Wiestner*
5. Impact of CLL cells on T cells in the tumor microenvironment - *Alan Ramsay*
