6th Symposium of ELN 2nd meeting on International Investigator-Initiated-Trials (IITs) in Europe

Congress Center Mannheim

Wednesday, February 04, 2009, 14.00 – 15.30 p.m.

Introduction: Special Event at the 6th ELN symposium

In 2008 at the latest ELN symposium a first workshop regarding international Investigator-initiated Trials (IITs) in the frame of the ELN was offered to the ELN members by ELIC. It attracted about 100 members from 20 different countries and was evaluated afterwards.

As of high interest by the ELN management and the members a new session will take place at the next ELN symposium. Although the topics will be presented to a bigger auditorium, the lecturers are asked to keep the presentations very educational focusing on practical procedures.

Content of the event:

TIME	TOPIC	SPEAKER
14.00-14.15	Introduction: The situation of international IITs in Europe	Gökbuget (ELN)
14.20-14.40	Starting an International IIT, challenges and strategies: the EBMT experience	Doran (EBMT)
14.50-15.10	What assistance can the ECRIN offer to investigators of International IITs	Kubiak (ECRIN)
15.20-15.30	ELN Working Group on international IITs	Ihrig (ELN)
