

3 March 2010

Dear members of the ELN,

with this newsletter we want to inform you about new input regarding the website-content.

**1. European Clinical Trials Directive**

The "Road Map Initiative" is a collaboration of research organisations including the European Leukemia Net which has the aim to contribute to a modification of the European Clinical Trials Directive. It is very important to particularly strengthen the position of investigator-initiated trials in this group. Several workshops on different relevant topics took place so far. A final multidisciplinary workshop on behalf of the 'Road Map Initiative for Clinical Research in Europe' will take place on 17 March 2010 in Brussels, Belgium.

Please have a look at the report and the agenda of the forthcoming workshop at [http://www.leukemia-net.org/content/international\\_trials/workshops/the\\_road\\_map\\_initiative/](http://www.leukemia-net.org/content/international_trials/workshops/the_road_map_initiative/)

**2. Event on Life Quality**

ELIC organized a very viable, intersectional meeting, addressing all workpackages and nations. More than 100 attendees discussed ongoing projects. The meeting gave a background on activities in the field of quality of life and also late effects and has given a frame for new collaboration in the ELN.

You will find some of the lectures at [http://www.leukemia-net.org/content/treat\\_research/quality\\_of\\_life\\_and\\_late\\_effects/internal\\_workshops/](http://www.leukemia-net.org/content/treat_research/quality_of_life_and_late_effects/internal_workshops/)

**3. Health Economic Issues in Leukemia**
