

6 July 2009

Dear members of the ELN,

with this newsletter we want to inform you about new input regarding the website-content.

1. ELN-EC activities:

In between the ELN a new working group was set up, to focus on practical solutions for multinational, investigator-initiated trials. Also further EU-funded projects are involved to amend the situation for clinical trials arising from EU Directive 2001/20/EC. A new initiative was built. They are joining forces on 7 July in a first of a series of five workshops. For more information about the **Road Map Initiative for Clinical Research in Europe** and the first CTA Workshop have a look at the website: <http://www.leukemia-net.org/content/e7556/e7560/e7894/>

2. Evaluation: Before and after EU Directive 2001/20/EC on clinical trials:

EFGCP, a project to evaluate the changes for clinical trials by EU directive, is giving the results on their website. Please have a look here:
http://www.leukemia-net.org/content/elc_ec/basic_information/

3. New website coordination:

Recently a change of staff at the European Leukemia Information center has taken place. In future Dr. Silvia Schäfer will take care of the internet presence of ELN. If she can be of assistance to you in upgrades, improvements or problems concerning the website, please let her know. Her short CV and contact data are available here: http://www.leukemia-net.org/content/network_services/infocenter/contacts/

We hope you feel this Newsletter is helpful. If you have any problems just let us know.

With kindest regards,

Dr. N. Gökbüget

Kristina Ihrig

Dr. S. Schäfer
